EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David Safran (Reg. 27,997) on March 14, 2007.

The application has been amended as follows:

(a) Cancel claims 16-19, withdrawn from consideration as a result of restriction requirement.

(b) Amend the abstract as below:

A rigid-flexible circuit board with two rigid areas and one flexible area, with a rigid individual layer which is copper-clad on one side, with an adhesive medium and with a copper foil, the adhesive medium having recesses in the flexible area. The rigid-flexible circuit board can be produced especially easily and economically in that at least in the rigid area there is no flexible individual layer, especially no polyimide film, between the adhesive medium and the copper foil.

2. The following is an examiner's statement of reasons for allowance:

After careful study of the pending rejected claims, the previously applied prior art to Kober (US Patent No. 5,144,534) and applicant's analysis presented on page 6 of the

Art Unit: 2841

response filed on February 27, 2007, the examiner concluded that the structure of Kober does not disclose the structure claimed by the applicant in the base claim 11. The structure of claims 11-14 is allowed over the prior art of record. To be specific the patentability resides in the limitations "wherein there is no flexible individual layer between the adhesive medium and the at least one copper foil in the rigid individual layer," "an insulating layer affixed directly to an inner side of the copper foil in the at least one flexible area of the rigid individual layer" and the adhesive medium has an opening in alignment with the flexible area of the rigid individual layer," in combination with other claimed limitations of the base claim 11.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ishwar (I. B.) Patel whose telephone number is (571) 272 1933. The examiner can normally be reached on M-F (8:30 - 5:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dean Reichard can be reached on (571) 272 1984. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
